## SUMMARY

Senior Software Engineer with 6+ years shipping production web applications across food-tech, health-tech, and dental SaaS. Deep in React, Next.js, Angular, and TypeScript; currently leading frontend at Cookr, where I have shipped 10 products — from a real-time operations dashboard to a white-label commerce suite. Backend-capable with NestJS, Kafka, and gRPC; comfortable owning features end to end.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, Redux, Zustand, TanStack Query (React Query), RxJS, Axios, HTML, CSS

**Mobile:** React Native

**Backend:** NestJS, Node.js, REST APIs, Microservices, gRPC, Kafka

**Databases & Cache:** PostgreSQL, MongoDB, Prisma, Redis

**Tools:** Docker, Git, CI/CD, Linux, Postman

## EXPERIENCE

### Cookr (Cloudify Technologies Pvt Ltd)

Hosur, Tamil Nadu

#### Senior Software Engineer

Sep 2024 – Present

- Lead frontend architecture for a team of 4 engineers across the Cookr and Nourisho platforms; drive code standards and mentor juniors.
- Built Cookr Control Tower, a real-time operations dashboard the ops team uses to monitor 800+ daily orders and track riders across the marketplace (React, TypeScript, Redux).
- Delivered the Comixo white-label commerce suite — conversion-focused onboarding site, multi-tenant management dashboard with role-based access control, and a self-serve outlet portal (Next.js, TypeScript, Tailwind CSS).
- Built Nourisho, a consumer marketplace for organic, clean-label food (React, TypeScript, Tailwind CSS).
- Migrated state management from Redux to Zustand, reducing boilerplate by ~60%; adopted TanStack Query for server state, eliminating redundant API calls.

#### Software Engineer

Oct 2022 – Sep 2024

- Built the customer-facing Place Order web app — cook browsing, menus, cart, and checkout with real-time order tracking (React, Redux, Tailwind CSS).
- Developed the Angular admin portal, seller onboarding portal, and analytics dashboard used daily to operate the marketplace (Angular, TypeScript, RxJS, Material UI).
- Built a reusable React + TypeScript component library shared across consumer and partner platforms.

### Adhanam Infotech Pvt Ltd

Chennai, Tamil Nadu

#### Software Developer

Jan 2022 – Oct 2022

- Developed DiaHome, an end-to-end diabetes care platform: three React Native apps (patient, health coordinator, doctor) plus a React admin dashboard — shipped to the Google Play Store with 10K+ downloads.
- Implemented OTP login, doctor appointments, medicine orders with prescription upload, lab search, in-app chat, and real-time vitals tracking (React Native, Redux).
- Built the company's responsive marketing website; worked directly with clients to translate requirements into working UI.

### Isithora Software Solution

Chennai, Tamil Nadu

#### Frontend Web Developer

Jan 2020 – Dec 2021

- Built the frontends of EasyDent, a B2B SaaS platform for dental labs to outsource CAD design — a customer admin portal and a designer portal (Angular, TypeScript, RxJS, Material UI).
- Implemented scan-file uploads, a four-stage order pipeline, 3D design downloads, multi-role access, integrated payments, and in-order messaging.
- Developed responsive, cross-browser UIs; built strong foundations in component architecture and state management (React, TypeScript).

## EDUCATION & CERTIFICATION

**B.E. Computer Science & Engineering — Kongu Engineering College**

2013 – 2017

**Full Stack Web Development Certification — freeCodeCamp**

2017 – 2018
